WORK EXPERIENCE

SOFTWARE ENGINEERING INTERN
PUDLE

📅 FEB 2020 – APR 2020   📍 GURUGRAM

- Managed user details and processed user requests by implementing REST APIs in Node.JS
- Worked towards adding new features to the application wherein parents could get information related to Covid-19 from professionals.
- Worked with MongoDB to store relevant user related data and also the information that needed to be displayed accordingly.
- Created a frontend resource that connected daycare centres with parents using Quasar(Vue.JS framework).
- Worked closely with the designers and was actively involved in the meetings that took place regarding betterment of things in the company.

Node.JS   Nest.JS   Typegoose   MongoDB   Quasar   React.JS

React Native   Typescript

SOFTWARE DEVELOPMENT INTERN + TEACHING ASSISTANT
CODEASYLUMS

📅 MAY 2019 – JULY 2019   📍 BENGALURU

- Worked towards creating a platform from scratch that could register students and help track their activities throughout the bootcamp. For Ex- The projects that they created in the hackathons conducted there.
- As a teaching assistant I was involved in organising hackathons and helping students with programming related doubts.
- Worked towards building a community of software developers by initiating an open source culture like GSoC(Google Summer of Code) in the bootcamp.

Node.JS   ExpressJS   MongoDB   Mongoose

EDUCATION

Bachelor of Engineering, Electronics and Communication
